### His future is why.

### New Item | Lantern

We all know how children are attracted to lights. For 2018 we have added a safe lantern for the inside of the playhouse and for night play. We call it Illumination Play. It is a brand new way to have fun!

This Swing Kingdom LED Lantern will create a cozy atmosphere inside of your child's playhouse and it can also be removed and carried around outside to light the way for budding explorers.

### New Item | Shade Canopy & Pyramid Roof

With the thought of hot, sunny summer days in mind, we have focused on enhancing our Shade Play concepts.

This year we are adding two new items: the modern style Pyramid Roof and our Swing Shade Canopy System.

These two featured items offer new options to help reduce your child's exposure to damaging rays from the sun. The shade they provide will cool down the temperature by 10° to 12° in the play area. So when you design your playset make sure you add one or both of these Shade Play items to create a cooler play time!

### New Item | Sports Play

With an ever-growing interest in sports among our youth, Swing Kingdom has a dedicated line of products designed to enhance your child's hand-eye coordination, strength and skill in a variety of ways.

These activities are created to give your child a stage at home on which to practice and increase their skill level through playing on their swing set. This year we focused on basketball and football. Above you will see our new Buzzer Beater Hoops that will provide hours of fun practice shooting baskets. Also, right beside it is our QB Challenge. Both of these fun items will increase stamina, develop hand-eye coordination and improve accuracy. Make sure to include these items on your new set or even add them to an older Swing Kingdom playset to extend the value of your investment.

### New Item | Water Play

New to our Water Play Products line this year is the Swing Beam Water Mister System.

On those extra hot summer days, your kids (and people standing near by) will love the cool, relaxing mist gently floating down from the swing beam up above. The refreshing mist will allow everyone to extend their play time outdoors.

### STRONG, SAFE, DURABLE

Our premium, vinyl playsets are five times stronger than traditional, wooden playsets. With accessories that range from infant swings to clubhouses, Swing Kingdom designs playsets that grow with your family. Therefore, each playset is manufactured with an eye towards durability and each set includes a 20-year warranty to stand behind our product.

Swing Kingdom's playsets are engineered from a safety first perspective. Our slip resistant, vinyl clad construction materials are always splinter free and no wood means no harsh, annual chemical treatments. Stainless steel hardware and corner brackets bring added stability, while optional bars and rails allow for age-appropriate customization.

Our network of authorized dealers have been individually selected to deliver upon Swing Kingdom's high standard of honest and straight-forward customer service. Our authorized dealer representatives will work with your family to design a playset that meets your individualized needs. Then, your playset will be assembled on site by a trained Swing Kingdom installation team.

Childhood is a time for lively imaginations and spirited adventures. It is also the time to build a strong foundation for active and healthy lifestyles. Swing Kingdom's playsets combine the fun of childhood with the fulfillment of physical and developmental needs to deliver upon learning through play. The healthy habits that are fostered by enjoyable exercise may be the one thing more durable than our playsets.

### Top 5 Reasons to Pick Swing Kingdom

### 1: REMARKABLE SERVICE

We strive to offer a service experience like no other in any industry. This involves aiming to do the job right the first time, addressing issues immediately and valuing you as a customer by going above and beyond your expectations with enthusiasm.

#### 2: MAINTENANCE FREE

Having a maintenance free product is a value often overlooked by many when price is their number one concern. The hidden value of your maintenance free, Swing Kingdom playset is the low cost of keeping it looking brand new. The average cost for maintenance on a non-vinyl playset is between \$600-\$900 a year. That will easily exceed any additional up front costs associated with your vinyl playset in just a couple of years. However, with a Swing Kingdom playset you can say goodbye to those annual costs for paint or stain. Knowing you won't have to worry about carpenter bees, checking wood, splinters, staining, sealing or sanding your playset, will bring you a peace of mind that is priceless.

#### 3: DURABILITY

Vinyl has five times the tensile strength and four times the flexibility of wood. By combining the beauty of vinyl with the strength of Wolmanized treated wood, we have created a playset your grandchildren will still be playing on for years.

### 4: ADAPTABILITY

With designs that allow for future expansion and interests, our versatileplatform playsets give you maximum flexibility as your kids grow and change. The entire family, from toddlers to grandparents, can play on our playsets. With almost unlimited play components to choose from, you have the ability to start small and have a Swing Kingdom play system that grows with your children for decades

#### 5: VALUE OF INVESTMENT

A Swing Kingdom playset is built to last, which means two things:

- 1. Swing Kingdom playsets hold a very high resale value.
- 2. Swing Kingdom playsets can be passed on as family treasures for generations. Imagine your grandchildren making fun memories on the same playset your children used! Our industry leading warranty and outstanding service means your playset can look the same on the day your child outgrows it as it did on the day he/she first played on it.

## Being Good Stewards

We consider it our responsibility to take care of the world around us. That's why wherever possible we use high quality recycled materials in our playsets. You can feel especially good about your new playset, knowing you're helping our environment while at the same time giving your child the ultimate in outdoor enjoyment.

- » Swing Kingdom's vinyl and decking products are the best and most uniform material available in the industry. Our vinyl is co-extruded under extreme pressure to assure a durable and beautiful finish for years to come.
- » The wooden structural elements of your home are covered to preserve them and to reduce maintenance. The same philosophy is used for Swing Kingdom's vinyl play systems.
- » If your playset does become dirty, you can easily revitalize its appearance with a simple garden hose, some glass cleaner and a soft bristled brush to wash away dirt and debris.
- » Our products contain an extremely effective UV inhibitor that offers more than enough protection from the sun's ultraviolet rays.
- » Our vinyl has five times the tensile strength and four times the flexibility of wood. By combining the performance of vinyl with the sturdy characteristic of Wolmanized Natural Select outdoor-wood, we create a playset that is built to last.
