# The Craftsman Collection

## Mission Revival Style Furniture

It all began with the Spanish Roman Catholic Monks. As they swept across Southwest America, planting missions among the Native Americans, they built their own furniture out of necessity. It was ruggedly simple, and strictly functional.

In the 1920's, Gustav Stickley, a German American designer, and others refined and popularized Mission Furniture. Today, it has become a furniture of choice among contemporary interior designers.

Tastefully simple with a trace of adventure, Mission Furniture represents a truly American blend of cultures. The Craftsman Collection has been built around mission furniture—historic, refined, celebrated, and of the most comfortable of its kind! Over the years, the Craftsman Collection has expanded to include several additional styles.

The Shaker collection is born from an iconic furniture style of the past. In the eighteenth-century the American Shakers crafted furniture known for its simplicity and durability. We proudly honor that tradition with our Shaker furniture.

Additionally the Craftsman Collection includes the Rustic Country, and Breezy Point collections.

# Mission Collection

This is the way we do Mission; warm and comfortable, strong and unadorned, with a touch of subtle refinement offered by the petite square spindles on the end panels. For over 20 years, easily our most popular collection with a wide variety of seating and occasional furniture. While most popular in oak and quarter sawn oak finished in the warm tones of medium to dark stain, the Mission Collection is also available in a variety of woods and finishes to satisfy your inner musings of decorative adventure.

## Morris Chair

The Morris Chair is a predecessor to the modern-day recliner. Based on a design found in a small cabinetry shop in Sussex, England, the Morris Chair was developed and first marketed by William Morris and Company around 1866. By the early 20th century, variations to the design had found its way into the catalogs of many of the manufacturers of the Arts & Crafts Movement. Through the influence of Gustav Stickley and the American Arts and Crafts movement, the American Morris chair took on an unsophisticated air of sturdy reliability as opposed to the European versions which tended to be more delicate and ornate.

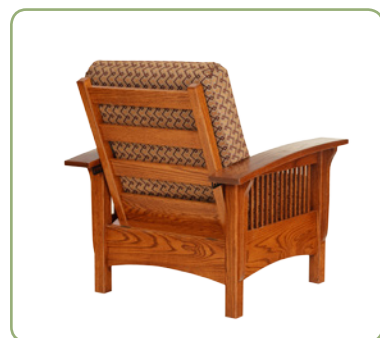

While adapted to many furniture styles throughout the years, several things are standard on the Morris Chair. It always features a hinged, adjustable back in varying positions. The wood framed seat and back are covered with separate cushions upholstered in fabric or leather and the Morris Chair is always built with arm rests. The popularity of the Morris Chair can be traced to one simple attribute: Comfortable.

Our Morris Chair Features and 8-position adjustable back, comfortable gently curved arm rests and reversible seat and back cushions (leather seats have air vents and do not reverse). The Morris chair matches our non-reclining sofas and loveseats and is offered in all our popular collections. While most popular through the years in regular and quarter sawn oak, it is available in any of the wood species we offer.

# Shaker Collection

Highlighting a square tapered leg and coupled with solid panels, the shaker collection takes mission and simplifies it even further. Like Mission, Shaker furniture focuses on practical functionality yet in its own unique simplistic form. While often favored by the traditional designer, Shaker style furniture is quickly finding its place in the contemporary community with the pairing of modern fabrics and finishes to the simple design of its solid hardwood foundation.

# Rustic Country Collection

Chilly evenings by the fire... A good read while listening to the contented murmuring of forest sounds... lengthy weekend conversations in the farmhouse. This is a gentlemanly sort of style that takes you to the country; the high country, the hill country, or the farm country. A soft yet distinct step in the skirtings and bunt feet neatly set off with sharp bevels hint to its rural origins. For a more modest approach, the Rustic Country pieces can be ordered without the bunt foot, showcasing a straight square leg.

All pieces are available with or without bunt foot.

## Upholstery Warranty

### Springs and Recliner Mechanisms:

The Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of the springs and recliner mechanisms.

### Glider Bearings:

(250 lb. load rating) The Craftsman Collection warrants to you, the original retail purchaser, a three year warranty. If found to be defective, we will replace the defective bearing or bearings.

### Seat and Back Cushions:

The Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of seat and back cushions. Cushion warranty is for loss of cushion resiliency and not normal flattening and softening of cushions, which is a result of regular use and aging and should not be considered a manufacturing defect. If found defective, cushions will be replaced free of charge. After 2 years we will not be liable for freight.

Cushion softness is significantly affected by the type of fabric or leather that surrounds it. Where applicable, a rotation of the cushion will greatly extend the life of both the cushion and fabric.

### Fabric:

We offer a one year warranty against unusual wear of fabric under normal use and with proper care. This warranty does not cover fading, pilling, or crushing of fibers which can occur with the normal use of some fabrics. All claims within warranty will be submitted for industry testing. We will tender warranty only if it is determined to be an actual fabric defect.

### Genuine Leather:

We offer a three year warranty against unusual wear of leather under normal use and proper care. Genuine leather may be one of the most durable upholstery materials; however, even the best quality leather has flaws and natural markings. Our leather is a protected aniline dyed, top grain leather, making for easy cleanup. (A soft damp cloth is recommended.) However, body oils and dust, etc., will cause this leather to develop a natural patina as it is used, especially in light colored leathers. Slight variations of color, along with the above traits, are characteristic of genuine leathers and distinguish them from synthetic materials. If uniform color and consistent grain are required, a faux leather (vinyl) may be a better choice.

Any of the above warranties are void if it is determined that the furniture was abused, used by pets, or heavily soiled.

## What is Quarter Sawn?

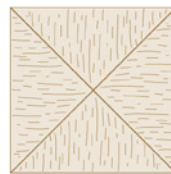

Quartersawn wood can be recognized by its unique ray flake grain. To create quartersawn wood, the log is first quartered and then cut perpendicular to the growth rings. This results in a very straight, fine-grained surface with interesting ray flakes.

Quarter Sawn Log

Quartersawn furniture was quite common years ago when craftsmen were primarily concerned about quality and durability. We offer you the same beauty, durability, and distinction today.

To make the most of that distinction, we use quad-linear posts for the legs of our upholstered mission furniture. usually, a leg post is created from a 3"x3" board. But with that approach, only two sides of the leg display the uniqueness of the ray flake grain. To overcome this obstacle, we cut four triangular pieces from our quartersawn wood, then glue them together, producing a leg of incredible strength, but most importantly, a leg that displays the beauty of the ray flake grain on all four sides.

Quad-Linear Post

## General Warranty

**T**he Craftsman Collection warrants to you, the original retail purchaser, ten year protection against manufacturing defects of any wooden components. Defective parts will be repaired or replaced at our discretion.

**W**ood is a natural product, and although we take great care to match grain and colors, some variation may occur.

**W**ith some care your furniture will last for years! Keeping it dust free is very important. Use a soft towel dampened with water or a quality furniture polish to remove the dust. Do not use a silicone based furniture polish!

**N**atural wood will expand and contract with the seasons. This is normal, but it is important to avoid extremes in humidity and temperatures. Avoid having furniture in direct sunlight, close to heat sources, or in extremely damp or dry environments.

**A**ll warranties are void if the recommended care displayed above was not exercised.
